Finally, the banality became so strong that the dream was unleashed from reality. This time of time is known as breakage and is associated with the time of the black plague. It was at this time that the ritual of the changing form was believed allowing Fae's spíritus to liven human bodies along with the soul of the human hu qé. For many years, the common changels lived among mortals and reached their way the best they could in a world where glamor was fading, this was interregno. Then came the resurgence, the man landed on the moon and the beliefs and the dreams opened the doors to Arcadia. Some Sidhe were able to return existing human bodies. With the return of the Sidhe and his desire to govern once more to all changelings, the war of conformity broke out. The commoners and the nobles fought for the control of the properties and the glamor until the new Alto Rey David reached a peace agreement. Traditionally, a changeling is a fairy child replaced by a human baby, but changeling: The Dreaming uses a very different interpretation. In the game, a changeling is a FAE soul born in a human body. At the beginning of the life of the human being, generally before puberty, they submit to the "chryshade", a medical awakening of the FAE soul that was previously inactive. Once through the chrysiers, changeling exists simultaneously both in the "real" world and in the "chemical" á ě á ě á ě oth of the FAE, where creative ideas and the Imagination have a substance. (The metaphytic aspects of this are the complex concepts present in the game). The human soul binds/cohabits along with the soul FAE. In days past rule would be divided between the courts, the Seelie court ruling in the summer months from Beltaine to Samhain, and the Unseelie court in winter from Samhain to Beltaine, but now an uneasy truce exists and each court rules its own regions. Each Changeling has two legacies, one for each court, which represent how the dual nature of their fae soul is expressed. Each Changeling is also a member of a "kith". Somewhat like different species of fairy, a Changeling's kith indicates the kind of dreams which birthed their soul in the Dreaming. The kiths are based on fairy archetypes from various sources, and while the most common kiths are drawn largely from Irish mythology, many others also exist. The descriptions below touch on only a few of the types of stories or traditional fairies which correlate to each Kith. Each Changeling also falls into a certain seeming which is related to their age. The seemings include Childlings, which are the youngest group between the ages of three and thirteen; Wílders, which are between the ages of thirteen and twenty-five; and Grumps, which include any older changelings though they rarely make it very long before becoming undone. As Changelings age and pass through the various seemings they lose some of their glamour, which is the stuff changeling magic is made of. They also gain Banality, a force created by mortal disbelief. Seelie Court The Seelie have a reputation as the guardians of fae traditions. They are the peacekeepers, protectors of the weak, and uphold the ideals of chivalry. Most Seelie seek the reunion between the mortal world and the dreaming, and would like to return to the time before the realms became divided. The Seelie Code Death before dishonor: Honor is the most important virtue, the source of all glory. Love Conquers all: Love lies at the of the sueÁ±os. True love transcends everything and personifies what it means to be Seelie. Beauty is life: Beauty is a timeless and objective quality that, while it cannot be defined, is always recognized by itself. Never forget a debt: One gift deserves another. The recipient of a gift is obliged to return the favor. Unseelie Court Where the Seelie are dedicated to preserving the traditions of the face, the Unseelie call themselves mockers of those traditions. They represent the principles of constant change and ± impulsive action. They have a reputation for fomenting war and madness, for despising the more diligent than themselves, and for valuing freedom and savagery above any ± chivalrous. The invisible see themselves as radical visionaries, producing vital changes and transformations by all necessary means, including violence. The largest of the Unseelie court members believe that the Dreaming have abandoned them, and therefore that they owe no special loyalty to their lost home of Arcadia. The change of ± from Unseelie is good. Security doesn't exist. The ultimate circumstance can transform a king into a peasant. Chaos and discord rule the universe. Adapt or die. Glamor is free: Glamor is worth nothing unless it's used. Buy it by any means possible, and never be without a constant supply. Honor is a lie: Honor has no place in the modern world. It is a fairy tale built to cover the essersal vacÁo behind the greatest of traditions. PasiÁ ± n before duty: The ± is not the truest state of the face's spurt. Follow your instincts and act on your impulses. Living life to the fullest without regard for the consequences; can occur regardless of what you do. The Menehune – Like the Nunehi, the Menehune are a race of their own existing only in Hawaii; they have their own Kiths that reflect their social roles. The Inanimae – a series of 6 kiths, five of which are based on the classic elements (with the earth divided into rock and wood) and one based on human creations; their equivalent of the Court system is based on whether they are occurring naturally or have been elaborated in some way by humans. Clurichaun – From the Immortal Eyes: Court of All Kings Sourcebook; duendes. Piskies – cheating children, imps, pixies. Selkies – Sea and seal spirits, skin changers. Gillhe Dhu – three spirits of Great Britain, dry, the Green Man. (See also dryad.) Kinain – technically is not a fae duck themselves, these are humans with enough fae blood to work with glamour in the way that the changeling do. Adhene – the Dark-kin who were released from their confines in the Dreaming after the destruction of the Antediluvian Ravnos. Many are allied with the Fomorians. Spriggan – children thieves. River Hags – Very related to Redcaps, but able to breathe water. Connected to some type of river; you cannot leave the area of said river for more than a week without starting to die. Oba – The little-known nobility of the Eshu. Linked to the land they rule. Have perfect, real features and bright orbs for the eyes. Hsien Found in the book Land of Eight Million Dreams (by James A. Moore) these are the closest equivalent to the kithain native to the kingdoms of Central and Western Asia. More than any other chicken, hsien are not like standard changes. They use a completely different magic system much closer to Mage's. Ascension. The nearest analogues mythologically are the Hsien or Shima, small who were once servants of greater spirits, and who must now answer secretly the prayers of the faithful. Instead of being born their souls souls Human bodies, Hsien appropriate the bodies and mortal personalities of the recently deceased, generally concealing the fact that they died at all. It is organized into ten divisions of Kwannon-Jin", of Kith, which include the noble Kamui and the hirayanu comNo. Each of the Kamui is aligned with one of the five Chinese elements: Suijen (water), Chu-ih-yu (metal), Komuko (earth), Hou-chi (wood) and Chu Jung (fire). The Hirayanu are equivalent to the kith commoner; Each can metamorphose into a certain type of animal. There are five: Nyan (cats), Tanuki (Badgers), Hanumen (monkeys), Heng Po (generally fish, particularly carp or catfish, or sometimes dolphins) and fu HSi (snakes). The Mer introduced in the book of origin of the tides of the tides of blood: Merfolk (Tritons, Mermaids, Mermen, Ocean's Nobles and Seducers) and Murduacha (pronounced me-rao-cha; Nucks, Mellow, sea monsters. These two kiths begin life as nereids (nor mer, or the "larval" stage) but reach maturity by merging with a pasara, a marine creature ritually joined with nereid to form about half of the new body of change (usually the body is lower than the body, half and limbs). Nereids whose apsarae are ± fish, sharks, cetÁoces or even oceÁoce reptiles evolve in merfolk; Nereids that bind with crustÁoecium, jellyfish, squid, octopus, worms or other oceÁoic invertebrates become Murduacha. The two Kith are traditionally mortal enemies, but rising tides of banality and human pollution from ± have forced Merfolk and Murduacha into an unstable truce. History Changeling: The Dreaming was originally published by White Wolf Publishing in July 1995. [1] A second edition was launched ± August 7, 1997, which will be launched at the convenciÁ ± n of Gen Con Milwaukee games. [2] [3] Changeling: The edition ± the 20th anniversary of It was launched on September 13, 2017 by Onyx Path Publishing [4]: á ě á ě á ě a company formed by White Wolf publication staff. [5] A player's guide supplement to The Dreaming was launched in 1996, by adapting additional skills, legacies, defects and minorities not included in the Base Game Rules Book, material related to the autumn People that had been left out of the rules book due to print errors , and new information about the world of game. [6] Time of Judgment, published in early 2004, included a chapter about the end of the world from the perspective of Changeling, and was the last material officially published for the game. Dark ages: FAE is a world of darkness: dark age play with strong vintages to Changeling. CHANGELING IN THE CHONICLES OF DARKNESS MAIN ARTICO: Changing: The Lost in August 2006, White Wolf Publicó Promethean: The Created, which included an advertisement for a 2007 version of Changeling, confirming the rumors that Changelings would appear in the environment of Chronicles of Darkness (then known as the "new" world of darkness). In April 2007, White Wolf announced the new "Changeling", Changeling: The Lost, and updated its period periodically with information about the new game. The game approaches the changing legends traditionally: the characters are real human that were stolen by the FAE, taken to Arcadia as slaves, and finally escaped back to earth. Its medical nature is the result of the changes that have been made in the world of fairy. The types of changes lack any direct connection with the legends of a particular culture. The FAE are purely antagonists, while the courts are determined by the four stations, and the spiritual dimensions and past life have been discarded. Changing: The Lost was launched on August 16, 2007. Reception ReceptionReView Scoresourcingarcane6/10 [7] Backstab8/10 [8] Luya Szachnowski of Arcane's magazine described the bland game compared to other White Wolf games, felt no l managed to create atmosphere, and criticized the decision of the developers to have the majority of faces migrate to America as it eliminated the option of having stories set in "the homelands of the Brothers Grimm or Hans Hans appreciated the use of cantrip cards and the option to play with or without them, but criticized the game's rules for lacking depth, commenting that if the game "had been the first Storyteller game l doubt it would have sold as well as Vampire".[7] Changeling: The Dreaming was the sixth highest selling role-playing game in France in the August eÁÁÁ September 1996 period.[9] Reviews Shadis #23 (Jan. 1996)[10] Dostediez (NÁÁmero 8 - Jul 1996)[11] Rollesplismagasinet FÁ, Anix (Danish) (Issue 10 - October/November 1995)[12] Envoyer (German) (Issue 3 - Jan 1997)[13] See also List of Changeling: The Dreaming books References ^ "White Wolf".
